EXPERIENCE

Kenshi Labs Consultancy Pvt Ltd.....
Senior Software Engineer July 2024 – Present, Bangalore

- Architected enterprise web apps with **React.js**, **Next.js**, and **TypeScript**; introduced design patterns and module boundaries for scalable development.
- Built a reusable component library and UI theming with **Tailwind CSS**, reducing UI build times by **30%**.
- Optimized performance (memoization, code splitting, selective re-renders) to improve Core Web Vitals and TTI.
- Standardized state management with **Redux Toolkit** and Context, improving predictability and testability.
- Led code reviews, mentored developers, and enforced **ES-Lint/Prettier** with CI integration for code quality.
- Collaborated with design and backend teams to align business goals with technical execution and delivery.

Independent Software Consultant.....
Senior Frontend Developer Oct 2023 – Jun 2024, Chennai

- Delivered client projects using **React.js**, **Next.js**, and **Tailwind CSS** with responsive, accessible UX (**WCAG**).
- Implemented **Server-Side Rendering (SSR)** and SEO best practices to improve organic search rankings.
- Performed frontend architecture audits, improving maintainability and reducing bundle sizes.
- Boosted client conversion rates through performance optimization and A/B tested UI improvements.
- Developed modular UI components and reusable hooks for faster feature delivery across projects.

Mastek.....
Software Engineer – UI Jun 2021 – Oct 2023, Chennai

- Migrated legacy systems to **React.js**, integrating with **Oracle Commerce Cloud (OCC)** for large-scale e-commerce.
- Improved application responsiveness via caching strategies and optimized API usage.
- Established unit testing with **Jest** and **React Testing Library**, reducing production issues.
- Led UI refactoring efforts, implementing code-splitting to improve load times and performance.
- Collaborated with product managers, designers, and backend engineers to deliver features on schedule.
